Welcome Home

This modern three bedroom semi detached house was completed in 2020 and has been carefully designed with light, flow and practicality in mind. The finish is calm and contemporary throughout and the layout works exceptionally well for modern family life, with flexible reception space on the ground floor and well proportioned bedrooms above. The house is ready to move straight into and enjoys an open outlook to the front and a generous garden to the rear.

The front door opens into a central entrance hall with a downstairs cloakroom and window to the side. A study sits to the front of the house and works equally well as a home office or snug. The sitting room is warm and welcoming, centred around a wood burning stove and enjoying views to the front. A glazed door connects through to the kitchen dining room, creating a natural sense of flow without losing separation.

The kitchen dining room spans the full width of the house and is very much the heart of the home. Bi fold doors open directly onto the patio and garden beyond, making it a great space for everyday living and entertaining. The kitchen is fitted with soft grey shaker style units with solid wood worktops, a larder cupboard and deep pan drawers. Integrated Bosch appliances are neatly concealed and underfloor heating runs throughout the space. Practical details have been well thought through, including space for a stacked washing machine and tumble dryer discreetly positioned in the cloakroom.

Upstairs, the main bedroom sits to the front of the house and enjoys open views across neighbouring fields. It benefits from fitted wardrobes and a well finished en suite shower room with Vado fittings, tiled floor and heated towel rail. Two further bedrooms are positioned to the rear and overlook the garden. The family bathroom is finished to the same standard, with a Vado suite, tiled floor, heated towel rail and a shower over the bath.

Step Outside

Outside, the house is approached via a large gravel driveway providing parking for several vehicles. Steps with iron railings lead up to a covered entrance and there is side access through to the rear garden. The garden is mainly laid to lawn with a patio immediately off the kitchen and dining room, ideal for outdoor dining, along with a further stone terrace and a garden shed. Additional features include solar panels, an electric vehicle charging point, exterior lighting, external power points and outside taps, one of which is supplied by a rainwater harvesting system.

Overall, this is a thoughtfully designed modern house that sits comfortably within its setting and offers light filled, well balanced accommodation that works just as well day to day as it does for entertaining.
